CHOLERA BOATS AT N. Y.

likely to be a Clash between the State and Federal Authorities.

WHAT PRESIDENT NOEL SAYS

He Thinks Sullivan Will Take the Check in Very Short Order on the 7th.

THE CHOLERA.

Scenes of Terror and Confusion on the Steamers.

New York, Sept. 5.—Three large steamships with immigrants on board arrived here yesterday from Europe, but there is no evidence of cholera among the passengers. They were the North German Lloyd steamship Fulda, from Genoa, with 908 passengers; the North German Lloyd steamship Darmstadt, from Bremen August 24th, with 380 immigrants; and the French ship La Bourgogne, from Hayre August 17 with 840 immigrants. The health officers boarded the three steamers at quarantine, where they were detained, and after making a careful examination, reported all on board well.

Dr. Jenkins, accompanied by Quarantine Commissioner Allen and Professor Biggs went to the lower quarantine yesterday morning, and on his return it was learned that the cholera had claimed a number of victims during the day. The startling fact was made public that three deaths had occurred on board the Normania, two on the Moravia and one on the Rugia. All the dead have been taken to Swinburne island and cremated. It has also been ascertained that six cases of the disease were sent to Swinburne island. The cabin passengers of the steamer Normania were transferred to Hoffman island. The panic among them is described by eye-witnesses as something frightful. They cried out against being confined to the post ship, and the ladies on board the vessel were in the greatest terror. Their fears were relieved to a certain extent, however, by their removal to Hoffman island. The commissioners describe the terror prevailing among the passengers as of a heart-rending character. There have been some doubts among the cabin passengers as to the presence of the dread disease on board the steamer, but the deaths and new cases which occurred have brought terror to the bravest hearts on board the infected vessel, and now all fully recognize the fact that the grim reaper is in our midst.

ARKANSAS ELECTION.

Republicans Are Taking But Little Interest.

LITTLE ROCK, Ark., Sept. 5.—The state election is progressing quietly in this city. There is a large Democratic vote being polled but few Republicans are voting owing to the unfamiliarity with the Australian law and general lack of interest in opposition tickets.

MEYER-McAULIFFE.

McAuliffe Is Stated not to Be in Good Trim.

New Orleans, Sept. 5.—The city is packed with visitors and the outlook is good for a packed house to-night to witness the McAuliffe-Meyer fight. McAuliffe does not look particularly well and his face does not inspire him in first class trim. Olympia Club officials held a meeting and have chosen a referee tonight's battle will naturally determine to make his identity public tonight. It is thought John Kelly will be the man. Kelly will probably come to the city this evening and is also announced to arrive tonight.

THE STEAMERS AT NEW YORK

There is Likely to Be a Clash Between the Authorities.

QUARANTINE, N. Y., Sept. 5.—All the passengers in the steamer of the Normania have been transferred to Hoffman island, where they will remain under observation. Six cases of cholera were transferred to the hospital on Swinburne island. The Moravia has no sick, but has her cabin and steerage passengers on board. The Rugia is also free from sickness just now, and has her cabin and steerage passengers aboard. The steerage passengers of the Rugia will be taken on shore today and kept under observation, and the steamer will be thoroughly disinfected. The same proceedings will be followed with the Moravia. There is a possibility that Dr. Jenkins may decide to release the cabin passengers of La Bourgogne today, in which event there is likely to be some clash between the federal and health authorities. The collector of customs it is said is following the president's instructions, and will not permit them to land.

LABOR DAY.

It Was Observed in Some Places But Not in Others.

PITTSBURG, Sept. 5.—Labor day was not generally observed here. There were no street parades. At Homestead everything was quiet. Most of the strike leaders having gone to other places to take part in labor meetings.

OTTAWA, Ill., Sept. 5.—Twenty-five hundred men and four bands of music participated in labor day celebration here. Much comment was occasioned by the refusal of the trades union to march under the triumphal arch which was on the line of march because part of it was erected by non-union labor.

KANSAS CITY, Mo., Sept. 5.—Labor day was celebrated in this city by a parade of 10,000 men.

NEW YORK, Sept. 5.—Labor day was generally observed in this city today. Everybody recognized it and the national political headquarters of both parties were closed. Labor parades in this city and Brooklyn were witnessed by thousands.

CHICAGO, Sept. 5.—Forty thousand workmen paraded the streets today. Procession was nearly double any previous one of Labor Day in Chicago.

Whittier Boats.

HAMPTON BEACH, Sept. 5.—John G. Whittier is better today.

SAN FRANCISCO, Cal., Sept. 5.—Labor day having been declared a legal holiday by Governor Markham, banks, exchanges public buildings, and the majority of business houses were closed. The parade of labor organizations in the forenoon was about the same in numerical strength as in former years.

Fireman's Day.

PORTLAND, Or., Sept. 5.—Fireman's day was observed here today by the veteran firemen's association. There was a parade this afternoon composed of the city fire department and a visiting delegation. Labor day will be observed tonight by public speaking at the plaza.

Corbett Made His Escape.

SPARTANSBURG, S. C., Sept. 5.—James J. Corbett and party took a hasty flight from North Carolina early this morning. Corbett laid over Sunday in Charlotte, N. C., and put in the day driving around the city and training in his private car. After midnight, Delaney, who is with Corbett on the train, learned that the solicitor general, who is lawyer and preacher, intended to rest the entire party in the morning for desecrating the Sabbath. The party was aroused, and when the Washington train arrived at 2 o'clock, Corbett's car was attached to the train and drove out of Charlotte in safety.

Sullivan in New Orleans.

NEW ORLEANS, Sept. 5.—Sullivan's train arrived here at 4:30 yesterday morning. Sullivan was immediately driven to the house of a friend on North Rampart street. He spent a considerable part of the day punching the bag and running at the Young Men's Gymnastic Club. His friends here are pleased with the vigor displayed in his work and his good general condition. Today he weighed 212½ pounds. He will work-off about four pounds of this before the fight.

FATAL ACCIDENT.

One Man Killed and One Fatally Injured.

TACOMA, Sept. 4.—News was received of a fatal accident at the new slope of the Bolyon coal mines yesterday. Joseph Erman was killed and Chas. Jones fatally injured. They were riding out of the mine on

a trip, and the wire parted and the trip shot down the slope, throwing Erman and Jones off. The coroner's jury found the engineer Carter Nichols and rope rider, Edward Prestage guilty of negligence. Neither are yet arrested.

AUBREY WILFRED MURRAY

He Is City Editor of The New Orleans Delta.

ST. LOUIS, Sept. 4.—Aubrey Wilfred Murray, the man who was so much sought for during the trial of the famous Evelyn vs. Huriburt breach of promise case in London, has been discovered, according to the St. Louis Republic. Mr. Murray is an Irishman by birth, formerly an officer in the English army, now a journalist. He came to this country, in 1880, and was employed on the New York World by Mr. Huriburt. He now lives in New Orleans, and is city editor of the Delta, the anti-lottery organ. Murray, in an interview with the Republic reporter, admitted his professional relations with Mr. Huriburt, but emphatically denied that he had ever impersonated the latter, or knew Gladys Evelyn, who sued Huriburt in London. "The way my name figured in the scandal," said Mr. Murray, "was this: Huriburt met Miss Gladys Evelyn, an almost unknown actress, on a London street. During the street flirtation he introduced himself to the woman as Wilfred Murray, a New York Journalist. You will note he only used my surname, but he doubtless intended to use my Christian name as well, but his memory played him false.

The Illusion was begun, and was kept up until it came into court backed up by a bundle of disgusting letters all signed Wilfred Murray, the woman had accepted the man for her lover believing him to be Wilfred Murray, a not over wealthy or prominent newspaper worker. She was satisfied so long as he kept up his attention to her; but when he left her to marry another, she brought suit and soon discovered that her ex-lover was the elegant and somewhat illiterate William H. Huriburt, then married to a wealthy woman. Huriburt beat Miss Gladys on the first trial, but the matter was taken before parliament and proof was laid before that body which resulted in a new trial being ordered and criminal proceedings being instituted against him. Huriburt fled the country, and detectives of the English government are now scouring the world for him. Detectives were sent over here after me several times, but I declined to go, as I did not care to testify against a man with whom I had once been intimately associated. A witness cannot be extradited, and for that reason Miss Evelyn will not get my assistance. What the plaintiff wants to show by me is: First, that I am not the man who wrote the letters; and second, that 'Murray' was a familiar identity to Huriburt. Prosecution of such offenses is not barred by any statute of limitations, and I doubt if Mr. Huriburt will ever again be able to live openly in any country with which England has an extradition treaty."

BY MEANS OF SULPHUR.

Mails From Foreign Countries to Be Fumigated.

WASHINGTON, Sept. 5.—By direction of the postmaster general the superintendent of foreign mail sent a telegram to the postmaster at Detroit, Port Huron, Sault Ste. Marie, Suspension bridge, Morristown, Ogdenburg, Rouses Point, Newport, St. Albans, and Neche, North Dakota, saying that the office is designated as one point at which mails reaching the United States from Canada shall be fumigated. The telegram said railway post officers are instructed to turn the mail over to postmasters, and it is to be thoroughly fumigated by means of sulphur. The postmaster at Philadelphia advised that the postmaster general desires all foreign mails coming from infected ports to be thoroughly fumigated and arrangements made whereby passengers on vessels in quarantine can communicate by mail with friends on shore.

TWO FEMALE FIENDS.

An Old Farmer Killed by His Wife and Daughter.

KNOX, Ind., Sept. 4.—Near San Pierre, Nicholas G. H. Gerarty, an old German farmer, had a misunderstanding with his wife and she left him, going over to live with her married daughter, Mrs. Charles Kersting, who lives on an adjoining farm. About 6 o'clock in the evening the old man tried to persuade his wife to return home with him, which she refused to do, whereupon he tried to eject her from the house. At this juncture his daughter struck him on the head with an ax, knocking him down. The two women then dragged him out into the yard, where Mrs. Gerarty held him while Mrs. Kersting stabbed him to death with a butcher knife. He was stabbed and cut in over fifty places on the body and face. One cut severed the jugular vein and eight cuts were through the groin and abdomen. His face was literally slashed to pieces. The women are under arrest. They are now strongly guarded, as fears of their being lynched are entertained.

Pacing Record Lowered.

INDEPENDENCE, Ia., Sept. 5.—Roy Wilkes, one of the champion pacing stallions of the world, started

ed against his mark of 2:58½, and paced a mile in 2:51½ on Saturday.

Looking for McWhirter's Murderer.

FRESNO, Cal., Sept. 4.—The committee of safety had a meeting and definite action against the hoodlum element was postponed. The friends of Sheriff Hensley represented that the jail was so heavily guarded because he feared the friends of Sontag the train-robbler, might organize ostensibly to find the murderer of McWhirter, but in reality to release their friend. The committee agreed to stand by the sheriff to preserve peace. It is generally understood that if it should become necessary to raid the jail for the murderer, they would also take care of the train-robbler. The presence in the city of Roberts, the crippled express messenger, gave an impetus to this sentiment. "We could make two arrests," said a local officer, "but it is premature, and we would prefer to get a better footing. That we are on the right scent there is no doubt, nor is there that we will eventually land the assassin on the gallows, but we prefer to take a slow pace; it is surer, and will bring better results."

Portland Races.

PORTLAND, Sept. 4.—The fall meeting of the Portland Speed Association opened yesterday. Attendance, 1,500. In the mile and one sixteenth, Misty Morn won, Coloma second, Cyclone third, time, 1:51½. In the three-eighths mile dash, Joe D. won, Manie S. and Paddy Ryan lead heat for second place; time, 2:22. In the second, Cyclone third, time, 1:51½. by the regular practice. Physicians

recommending this medicine never

fail to give it with satisfactory results.

E. M. Sargent, Lowell, Mass., says:

"Several years ago, my daughter had

out with large sores on her face,

and other parts of her body. The

case puzzled the doctors. My daughter

used Ayer's Sarsaparilla, and it result-
